[www.crownmats.com](http://www.crownmats.com)

**Crown Matting Technologies,** located in Fremont, Ohio, has been setting the pace in commercial and industrial matting, using proprietary innovative technologies to further our products and the industry for over 80 years.

Today, our purpose has never been clearer, manufacture and deliver products with the same strength and character of the workforce we support.

Our products are as easy to stand on as they are to stand behind.

Crown Matting Technologies has been fortunate enough to cushion a generation of workers, helping to reduce leg and back fatigue, thereby improving the safety and productivity of your workforce.

We're honored to have done so.

We look forward to serving our fellow workers for generations to come ... one mat at a time.

# Dry Environments

Crown offers top-performing dry area floor mats for virtually any application.

From Industrial assembly lines to work stations and packing areas, these mats are designed and manufactured to provide outstanding support against muscular fatigue, as well as aid in the ongoing efforts to make every commercial environment as safe as possible for your workforce. In addition, our Fusion Technology, which permanently bonds two surfaces without the use of glue or adhesive, provides unmatched durability.

With both traditional and made-to-finish products, you won't find a more versatile selection anywhere.

## As resilient as your workforce. As tough as your workplace.

Zedlan foam is the byproduct of two scientists' mission to develop a foam, hard-wearing enough to withstand the harshest environments, yet resilient enough to support the ergonomic needs of your workforce. With three-times the "bounce" of standard vinyl foam, our patented Zedlan foam truly defines high-performance for the industry.

**Strong. Resilient. Safe.** Three critical matting features that can dramatically influence the success your workforce and your business. Zedlan foam was developed with these workplace imperatives in mind. Here's how we back it up:

- **Strong** - Zedlan foam outwears similar products by nearly three to one
- **Resilient** - Zedlan foam has three times the bounce of traditional anti-fatigue products
- **Safe** - combined with our exclusive slip resistant technology, Zedlan foam offers superior traction compared to standard foam products

Zedlan foam. Just one more way we support our customers by developing industry leading products that support their workforce.

## TAILORED SOLUTIONS

Heavy machinery and concrete floors don't move easily, so we've made our mats hard-wearing and easy to work with. From custom cut and finish, to adaptable and expandable "build to suit" products, we've got you and your floors covered.

Our commitment to providing the right solution for unique environments means our products can be produced in a vast variety of configurations, cuts-outs, and shapes (including angles and semi-circles) as well as seamed for larger-width offerings. We've also developed optional nosing for many of our products, providing even more design choices to meet even the most elaborate environmental challenges. Crown's Total Customization offering provides a turn-key approach to a tailored matting solution you simply won't find anywhere else. If you have a matting challenge you've been working hard to resolve, give us a call. We're here to help, and we're pretty confident we can.

Look for the Zedlan Foam icon in this catalog to identify products containing our patented formulation.

Exclusive technology that permanently bonds two surfaces without use of glues or adhesives.

The Spark Resistant icon indicates FMVSS302 certified products.

The Anti-Static icon indicates static dissipative resistivity

Contains recycled content

The D.I.N.P Free icon indicates products that comply with the State of California's Proposition 65 regulations.

Our Slip-Resistant icon indicates foam products coated with our unique slip-resistant formulation to provide additional safety benefits.

The Oily Areas icon indicates products that have been approved for use in certain oily environments. Please see the chemical resistance guide on page 25.

The High Voltage icon indicates Non-Conductive High- Voltage applications

The ThermoGrip icon indicates products with our exclusive red backing, which provides an anti-microbial solution.

Exclusive ThermoFlex technology offers increased durability and allows for customization.

Our Logo icon indicates matting that is part of our custom logo program.

The Gray ThermoGrip icon indicates products with our exclusive black ThermoGrip backing, which provides an anti-microbial solution.

## #531/#541 Workers-Delight Spiffy Vinyl

DRY AREA

### FEATURES

- Puncture resistant PVC top surface allows for better durability and stability
- Patented Zedlan foam combined with our fusion technology creates an unmatched level of durability and comfort
- New slip resistant coating on underside of mat ensures steadiness and control on smooth surfaces
- Use for finishing stations, assembly station, work stations and pharmacies
- 25% Recycled content

### SPECIFICATIONS

Standard Sizes: 2' x 3' 3' x 5' 3' x 12'

Rolls Sizes: 2' x 60' 3' x 60' 4' x 60'

Total Customization: 2', 3', 4' widths

Thickness:

#531 - Standard - 9/16"

#541 - Supreme - 5/8"

Colors: Black, French Gray

### WARRANTY

A full-page background image showing a worker in a red protective suit and helmet standing on a heavy-duty mat in an industrial setting. The mat has a textured, grid-like pattern and a yellow border. The worker is holding a tool and looking towards the camera. The background shows large industrial tanks and a complex metal structure.

# Wet / Oily Environments

Industrial and commercial settings bring plenty of flooring challenges. Add water, chemicals, or any other fluids to the already complicated environment, and your safety and health concerns multiply ... quickly. To help you address those concerns, we've built one of the most comprehensive and proven wet/oily environment matting lines available. We offer both solid surface and drainage mats and that's just the start. Need grit for extra traction? Nitrile infused mats that can handle industrial fluids without breaking down? Perforated surfaces to move fluid through quickly and reduce slip/fall hazards? Modular mats for easy on-site custom solutions? Pick one, or tell us your needs and we'll problem-solve with you. Chances are we've got what you're looking for.

# #775/#776/#777/#779 Ergo X-Treme

OILY AREA

### FEATURES

- 100% molded nitrile rubber offers ten times the lifespan of standard rubber mats
- Aggressively patterned top surface ensures maximum foot traction in slippery environments
- Use for factories, machine shops, auto manufacturers, power transmission facilities

### SPECIFICATIONS

Standard Sizes: 18" x 18" tiles (8 per case)

Pre-Constructed Mats:

3' x 4' 3' x 6' 3' x 9'

Total Customization: Up to 9' x 21'

Thickness: 3/4"

Finish: Safety ramps available with or without grit

Food Service Matting

# Anti-Static (ESD), Non-Conductive & Runners

Whether you require anti-static matting for technical settings, non-conductive matting for high-voltage applications, or matting runners to protect your floor, we've developed a variety of products to meet the needs of these specific environments. The discharge of static electricity or exposure to high-voltage equipment can greatly increase safety and health risks in any number of work environments. Our extensive line of Anti-Static (ESD) and Non-Conductive Matting can quickly provide the necessary safeguards for workers and equipment. Our mats are tested to withstand rigorous standards and extreme conditions ,from corporate "clean room" applications to the most demanding military applications. Keeping static and electrical sensitive work areas under control is one more way we help build safer and more productive environments for your workforce.

# #930 Electrically Conductive Deck Plate

ANTI-STATIC

Deck top surface

PVC foam backing

Stock mats include one installed ground cord

### FEATURES

- Static dissipative surface resistivity of 106 ohms per square
- PVC foam backing allows good anti-fatigue relief while standing
- Use for computer work stations and terminals, sensitive electronic equipment or electrical rooms

### SPECIFICATIONS

Standard Sizes: 2' x 3' 3' x 5' 3' x 12'  
 Roll Sizes: 3' x 75'  
 Total Customization: Available  
 Custom cuts need one ground cord per 10' (sold separately)  
 Thickness: 9/16"  
 Colors: Black

**WARRANTY**  
Total Confidence

# #920 Stat-Control

ANTI-STATIC

Smooth vinyl surface

PVC foam backing

Stock mats include one installed ground cord

### FEATURES

- Static dissipative surface resistivity of 107 ohms per square
- PVC foam backing allows good anti-fatigue relief while standing
- Use for computer work stations, cashier stations or test / electronic stations

### SPECIFICATIONS

Standard Sizes: 2' x 3' 3' x 5' 3' x 12'  
 Roll Sizes: 3' x 75'  
 Total Customization: Available / Custom cuts need one ground cord per 10' (sold separately)

# Entrance & Specialty & Promotional

In addition to just looking great, entry mats work harder than you might imagine. Entrance matting helps minimize the accumulation of dirt in your building. A proper arrangement of 15 linear feet of entrance matting will prevent up to 80% of the accumulated dirt from spreading onto your floors.

And, that's a lot of dirt. Up to 24 pounds can be tracked in by just 1,000 people over a 20-day work period.

In addition to fighting dirt and dust, entry mats also:

- Reduce maintenance costs
- Protect floors
- Improve air quality
- Enhance the look of your work place
- Diminish the risk of slips and accidents

Need more information?

Go to [www.crownmats.com](http://www.crownmats.com) for the bigger scoop on dirt in the workplace and how Crown Mats can help.

## #175 Jasper

OUTDOOR | SCRAPER

Cut-pile nylon fibers

### FEATURES

- Cut pile mat made of strong nylon scraping fibers
- Slim profile facilitates the opening of doors
- For outdoor/indoor entrance and lobby with medium traffic

### SPECIFICATIONS

Roll Sizes: Unavailable

Total Customization: Length/Width cuts up to 6'x40'

Finish: Rubber backing and borders, Excellent digital reproduction Lead Time: 2-3 weeks after signed proof

Colors: Up to 150 available colors

## Care and Maintenance

### Use & Care Instructions – Ergonomic Matting

Regular maintenance of your mats is critical to extend mat life and appearance. It is recommended to develop a regular maintenance schedule. Frequency will depend on traffic and soil conditions.

#### INITIAL MAT USE

1. Within a few days of receipt, rolled mats should be unrolled and laid flat.
2. Some rubber mats may have an oily or sticky film on them. This is a releasing agent that is inherent to molded mats, not a defect. Simply wash down with a mild detergent or degreaser to remove this film.
3. To store mats, roll them up and lay them in a moderate temperature, dry area. Do not stand on end or crush.

#### ERGONOMIC / ANTI-FATIGUE MATS – Vinyl

A. Shake dirt and debris or sweep with a broom daily to remove surface dirt. Sweep the area underneath the mat before replacing it to remove any dirt or debris that could cause premature wear and reduce slip hazards.

B. Mats can be washed off with a hose or pressure washer or damp mopped with a nonabrasive, water-based detergent. Let the mat dry completely before allowing foot traffic to resume.

#### ERGONOMIC / ANTI-FATIGUE MATS – Rubber

A. Shake out dirt and debris by daily flipping the mat over, or by gently sweeping with a broom to remove surface dirt. Sweep the area underneath the mat before replacing it to remove any dirt or debris that could cause premature wear.

B. Mats can be washed off with a hose or pressure washer or gently scrubbed by hand with a soft brush and a nonabrasive, water-based detergent. Let the mat dry completely before allowing foot traffic to resume. Grease proof or grease resistant mats used in kitchens or oily environments should be cleaned periodically using a water-based detergent and degreaser with a mop or pressure washer to break down excessive grease. Mats should not be put **in a dishwasher.**

**IMPORTANT! Do not use rotary scrubbers, or other mechanical cleaners or scrubbers to clean.**

**Do not use solvents, harsh detergents, or alkalis directly on the mat. Do not use the mat in areas where these materials are used.**

## How to Order

With a global distribution network, it's easy to put the strength of our matting solutions to work for you. Visit [www.crownmats.com](http://www.crownmats.com) to find the Crown Matting Technologies distributor/rep nearest you. Or, simply call our customer service team at **800-MAT-LINE (628-5463)**. We welcome the opportunity to discuss our products, take your request for a sample, or answer any questions you may have.

## Warranty

#### STANDARD LIMITED LIFE TIME WARRANTY POLICY

New products are warranted against defects in material and workmanship when maintained as instructed in the Use and Care Instructions included with each product. The obligation under this warranty is limited to the original user and to the replacement, repair, or pro-rated refund of said product. This warranty excludes the costs incurred for the installation of the carpet and/or mat. It remains the responsibility of the owner to carry out an inspection of the product prior to the installation.

#### **This Warranty Is Not Applicable Under The Following Circumstances:**

1. Improper use, application, installation or cleaning of the product
  2. Normal wear
  3. Use of this product for other than its intended purpose
  4. Lack of proper maintenance as described in the Use and Care Instructions included with each product
  5. Products that have been altered in any way
- If a problem with a product develops during the warranty period, contact your authorized dealer.

Please go to [www.crownmats.com](http://www.crownmats.com) for additional warranty information.

# Chemical Resistance Chart

Please use this chart as a basic guide. In many cases, resistance to these chemical solutions have been evaluated as a result of intermittent exposure rather than constant exposure. If concerned, please request a sample for testing under your conditions.
